About *Pivot*

Pivot is a hybrid academic and creative journal published annually by members of York University's Graduate Program in English.

“Pivot,” according to the OED:

verb,

1. intransitive. To turn on, or as if on, a pivot; figurative: to depend on, to hinge on
2. transitive. To provide with a pivot; to mount on, or attach by means of, a pivot or pivots; to hinge

noun,

3. a short shaft or pin forming the centre on which a mechanism turns or oscillates
4. figurative: the crucial or central point of something; that on which everything depends

Pivot aims to embody all of these meanings. On the one hand, pivoting and shifting with the times, changing according to academic ebbs and flows in theory and fashion; on the other, providing a centre around which other discourses, ideas, people, and works can revolve. *Pivot* is dedicated to lifting diverse voices and displaying a range of subjects prioritizing no period, genre or experience above another. Our goal is to promote innovative, creative and interdisciplinary thinking and to offer unique and exciting perspectives to our readership.
